

DIEBOLD 9900 IN-LOBBY TELLER TERMINAL

FAST, FLEXIBLE AND SMART BRANCH TRANSFORMATION

Recent technological advancements have empowered consumers to interact with the branch in new ways. While this opportunity enhances efficiency, it sometimes can be at the cost of consumer acquisition, engagement and retention.

The Diebold 9900 in-lobby teller terminal offers the ideal solution. It combines the speed and accuracy of a self-service terminal with intelligence from the bank's core systems. The Diebold 9900 links to the staff within the bank to provide the ultimate in around-the-clock service and tailors to every type of transaction, a diverse range of individuals, and small and medium businesses (SMBs).

FAST - DESIGNED FOR TODAY'S BUSY CONSUMER

With the ability to sort, validate and check note fitness, the Diebold 9900 provides a teller-like experience with remarkable speed.

- Reduced lines and waiting times across all transactions
- High cash capacity for improved speed and efficiency
- Increased sales opportunities through faster service and leveraging of open branch environments

FLEXIBLE - INCREASED BUSINESS AGILITY

With its modular design, the Diebold 9900 supports a financial institution's needs today and easily extends to address tomorrow's.

- Single terminal with capability for all transaction types
- Self-, video-assisted and teller-assisted service options in a single unit
- Configurable cassette options that tailor to branch needs

SMART - COEXISTENCE OF AUTOMATION AND TELLER

The Diebold 9900 provides the highest levels of functionality, processing power and connectivity.

- Enhanced remote assistance with live, two-way Concierge Video Services™
- Frees tellers for personalized interactions that deepen account relationships and create sales opportunities

We've got a solve for that.™
